

The more you brew, the more you accrue.

Grab a cup of excellence with **Income 150+**[™] fixed index annuity. Enjoy the bold flavor of 7% commissions plus an additional sweetener — incentive compensation based on annual production of Income 150+ only.

Now with a **bolder change:**

Production is based on a rolling 4 quarter assessment

In addition to your regularly scheduled point of sales commissions, we have built-in incentives to compensate you regularly, up to 200 bps, for outstanding production with **Income 150+**.¹

The rolling 4 quarter assessment gives you the best chance for qualifying all of your production because it's never interrupted by year-end. Your qualification can now be maintained throughout the year and not limited to a calendar year.

Eligibility requirements

Agents are eligible if they have no debit balance and have not been the subject of any customer complaint. Agents, corporations and licensed only agents assigned to their own hierarchies must be at EGA level or below. Agents may not aggregate production to qualify. The program and its criteria apply to individual writing agents signing applications. Premiums may not be split between agents for qualification, even if commissions are split at point of sale. Forethought reserves the right to terminate or change the terms of this program at any time, at its sole discretion, and will make all determinations as to eligibility.

¹ Production is based on Income 150+ sales and assessed on a quarterly basis to determine the qualifying incentive. Qualification is based on Net Paid Premium, which is all paid premium minus any premium subject to chargeback for surrenders or deaths in the first contract year.
